Backsliding happens very subtle in a person's life, without the person noticing their decrease levels of spiritual relationship with the Heavenly Father. Life stuff involving family, children, and working causes the person to look more at accomplishing various projects rather than spending quality time with the One Most High Almighty. When the person performs actions of gaining more money and materials that person would fall into the deception of becoming a backslider. When a person is addicted to using electronic devices of computers, laptops, smartphones this emotional and physical connection will contribute to spiritual disease. The spiritual disease is a person lacking intimate, devoted, dedicated, and quality time with the Heavenly Father Almighty Yahweh by reading, meditating, and studying His Holy Word. This is an article about Christian backsliding from Words of Life Ministries titled Study 6 The Danger of Spiritual Relapse (2020), “1. Every Christian is faced with the danger and the possibility of spiritual relapse., 2. Backsliding always begins in the heart., 3. The outward evidence or the result of backsliding is always the same.” (Reference: Retrieved from <https://www.wordsoflife.co.uk/bible-studies/study-6-the-danger-of-spiritual-relapse/>)
