

Watchman on the Wall!

Title: *East Wind*

Date: October 16, 2014

Day: Thursday

Time: 7:41 a.m.

Holy Bible Scripture: Genesis 41:27 Amplified Bible - *And the seven thin and ill favored cows that came up after them are seven years, and also the seven empty ears [of grain], blighted and shriveled by the east wind; they are seven years of hunger and famine.*

This is the dream the Heavenly Father Almighty, Creator and King of the universe sent to me.

In my dream, I was walking on this street in a particular neighborhood. As I was walking I saw a few people in the community. Sometimes, it appears I was walking and other times I was riding what seem like a bicycle. As I was walking and/or riding this bicycle, I notice the sky was getting dark. At this point, I continued walking upon the road, and I approached this hill. I was walking up the hill and saw two men walking on the opposite side in the opposite direction. The Holy Spirit gave me discernment that these two men had ill will and evil intentions in their hearts. These two men continued walking on the road out of my sight.

The next part of the dream, I was walking toward some houses, and I notices the wind began to blow and the trees began to sway. The wind speed increased and I saw entire trees uprooted and carried across the road that I was walking upon. Then I saw the wind blowing a small tree upon the porch of a house where an older peson was taking care of her granddaughter. The small child ran to the door of the house and cried out to her grandparent, "Look, a tree is here on the porch!" Then the grandparent walked to the front door and began complaining that a tree was on her front porch blocking opening the front door. I continued walking and saw the wind blowing large trees up in the sky. Then I saw another tree blown by the strong wind become entangled with telephone wires. I was riding the bicycle and praying to the Heavenly Father to protect me as I rode underneath the tree dangling in the air from the telephone wires. The Almighty Creator and Heavenly Father blessed me to pass safely underneath the tree intertwined with telephone wires hovering over the road.

The end of my dream.
