This is a dream the Most High and Exalted One Yahweh Elohim Almighty, El Gibbor, El Shadda, El Elyon, Creator of the earth, seas, and universe sent to me while I was in Georgia.

This is the best I could remember from the dream with my limited drawing abilities to show what I saw in my dream

In this dream my son and I were sitting in a room filled with many people. My son (in this dream he is 8 to 10 years old) and I had went inside this room that seemed to be for a star-gazing outside concert about the stars. It appeared the dream started as the event was ending, and I looked up into the sky (it seemed we were attending an outside event). Both my young son and I looked up at the beautiful stars twinkling in the sky. As I was looking up at the sky, I was trying to recognize the constellation, but then I saw an unusual figure in the dark starlight sky. Yahweh Elohim Almighty will not allow me to remember this part of the dream of what the figure looked like in the sky.

The next thing happened in the dream was while I was looking up toward the sky what seemed like a satellite appeared. As a matter of fact, many of these satellites appeared as I looked up into the sky. The satellites were extremely large with a round shape, had mechanical arms, with some type of round light fixture and they could spin or turn around in a circular motion. I noticed one of the satellites with lights on turning around with mechanical arm-like devices on each side, and the other satellite did not have on its lights. As my son and I were still sitting in our chairs and I am looking up toward the sky, one of the satellites (the one without its lights on) dropped out of the sky and fell to the ground. The falling satellite hit the ground, and a large round piece of the satellite rolled around the rows of seats. We and the people were looking at this large round piece of satellite rolling around the back of the concert event seats.

[Isaiah 47:11](#)

Therefore shall evil come upon you; you shall not know the dawning of it *or* how to charm it away. And a disaster *and* evil shall fall upon you that you shall not be able to atone for [with all your offerings to your gods]; and desolation shall come upon you suddenly, about which you shall know nothing *or* how to avert it.

Continuing in the dream, as everyone was looking at the large round piece of fallen satellite rolling toward the back of the rows of seats, we saw in the distance a major mega city. The large mega city in the distance looked far away, but yet at the same time it seemed close enough to see the tall buildings. We saw clouds of smoke surrounding these tall buildings in this large mega city. As we all looked at this major mega large city with tall skyscraper buildings we saw airplanes flying around them. These airplanes were not the current models of today, but these airplanes had propellers like the ones from the 1940s. Several of these propeller airplanes flew around the skyscraper as clouds of smoke billow around the buildings. I saw the propeller airplanes

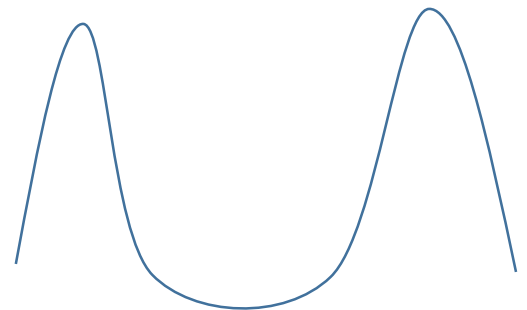

dropping small red square-shaped items. Then the propeller airplanes began flying toward us where we were in the outside auditorium. As the propeller airplanes flew toward us, they continue to drop red square-shaped items upon the buildings. When the propeller airplanes arrived to where we were standing in the outside auditorium, they dropped many of the red square-shaped items. I and others looked down at these red square-shaped items and began to disperse into all different directions.

[Jeremiah 19:8](#)

And I will make this city an astonishment *and* a horror and a hissing; everyone who passes by it will be horrified and will hiss [in scorn] because of all its plagues *and* disasters.

Then the dream changed again showing a large body of water appearing at the outside of the auditorium. This large body of water was splitting open down the center. Mounds of water on each side were being created as the separation began. My son and I were on the left side facing the large body of water. As the body of water grew higher and higher, it separated more and more creating bigger mounds of water. I did not see the other people, but heard a male's voice from someone on the other side saying, "Don't go to that side" or "Don't go on that side." The dream ended.
